

## **Blackwater River Foundation Wishlist**

The following consists of the Blackwater River Foundation's "wish list" items to help achieve our goal of constructing an outdoor classroom pavilion and an interpretative maritime history nature trail. We deeply appreciate Impact 100's contribution to our community by providing a local funding source for projects that would never be accomplished otherwise.

The list follows:

- General Contractor services to oversee construction
- Civil Engineer for site preparation and review
- Landscape Architect for site plan preparation
- Architectural services for pavilion
- Educational Resources for Library
- Graphic Design services for kiosks and educational materials
- Engineering services for boardwalks through NWF Water Management District property
- Construction services for pavilion
- Electrical and plumbing services for pavilion
- Folding tables and chairs
- Picnic tables and benches
- Accessible portable toilet services for indefinite period of time
- Trail mower
- Riding lawn mower
